## SOLDIERS BURIED

Under Falling Wall, Is the First  
Accident Reported in Clear-  
ing the Debris.  
DYNAMITE CAUSES WALL TO FALL.

A Mass of Twisted Iron Parity Shielded  
Them and Only One Is  
Seriously Hurt.

Sunday Was the First Day of Official  
Rest San Francisco Has Seen  
Since the Beginning of  
Its Distress.

San Francisco, May 7.—The first ac-  
cident in connection with the dynam-  
iting of dangerous walls by the en-  
gineers of the army took place Sunday.  
The engineers were working in the  
downtown district. Twice had dynamite  
been exploded under the facade of  
a tall ruin and a third charge was  
being inserted when the wall fell.  
Three soldiers were buried at a mass  
of twisted iron partly shielded them  
and only one was seriously hurt.

This has been the first day of official  
rest that the city has had since the  
beginning of its distress. All of the  
municipal departments were closed.  
Among the churches the same  
conditions prevailed as upon the pre-  
ceding Sunday, and the services be-  
ing the rule since when the build-  
ings were abandoned. At Golden Gate  
park the usual Sunday afternoon con-  
cert was given and was attended by  
thousands. The people as a whole  
are beginning to feel for some  
division was shown when a great  
crowd assembled in witness a trou-  
ville show. The audience, however,  
at the last moment refused to permit  
the performance.

Criticism—Wash. after receiving his  
list of victims of his earthquake, in-  
formed that (from the total  
number of cases handled by his office  
was 319, of which 214 were confirmed  
and 105 unconfirmed. This report  
shows a lower than given in a pre-  
vious report.

The streets of the lower district  
were thronged Sunday with sight-  
seers. Very late from many towns  
on the peninsula and every footpath  
in the bay was packed with people,  
and almost every third person car-  
ried a camera or took in expecta-  
tion of the crash of people's mouths  
of street fakirs springing up at night  
along the curb on the elevated streets  
prepared to furnish refreshments, and  
most of them enjoyed profitable trade.  
In many instances the people were  
told with the names of former fa-  
mous hostesses and the immunity  
of Hot Frankfurt, five cents," be-  
cause "Palace hotel" provoked a smile  
on passersby.

Deranged By Fight.  
San Francisco, May 5.—Superior  
Judge Minksky, who has been sitting  
as consulting judge of many cases  
since April 18, has passed on the  
majority of 33 persons whose minds  
have been more or less deranged by  
fight.

Loss About \$350,000,000.  
San Francisco, May 4.—While it is  
difficult to give exact figures as to  
losses and insurance in connection  
with the fire, close estimates have  
been compiled which show that the  
actual property loss is close to \$350,  
000,000.

Father and Daughter Shot.  
Nashville, Tenn., May 7.—Melvin  
Winters was shot and instantly killed  
and Thomas Stewart and his young  
daughter severely wounded during an  
affray at Stewart's home, near Pleasant  
View, Cheatham county. The  
cause of the shooting is a mystery.

**A. O. U. W. Banquet.**  
On Friday evening an open ses-  
sion of the A. O. U. W. was held  
in their hall at Old Fellows Tem-  
ple. The visitors present were G.  
M. workman, S. W. Bedford, of  
Owensboro; P. G. M. workman, J.  
T. Simon, of Cynthiana; Dup. G.  
M. W. P. Mar and the boy  
orator J. Hub. Prather, of Lexing-  
ton and 12 members from Oak  
lodge, of Winchester. After this  
meeting a banquet was served on  
first floor T. J. Bigstaff of our  
city was toast master. Speeches  
were made by Messrs W. C. Ham-  
ilton, S. C. Degarmo, Jno. C. Wood  
and Judge A. A. Hazeltine. The  
audience was about 125. Among  
other delicacies served was genuine  
goat. The entire program was a  
social event of rare enjoyment.

This lodge has an active mem-  
bership of about 130 members, re-  
presentative citizens of the country.  
Their powers for good have been  
felt in objects of charity and in  
the encouraging of better morals.

**DOWIE'S GRIP HAS FAILED**  
In Zion City, and His Little Band Cuts  
Small Figures.

Chicago, May 4.—John Alexander  
Dowie is making little if any progress  
in regaining any foothold among his  
former followers in Zion City. The  
"First Apostles" has been in Zion City  
for five days and has held three meet-  
ings in Shiloh temple, but the "faith-  
ful" are still loyal to their new leader,  
Dwight Overmyer, William Vo-  
lra, and do not respond to Dowie's  
call for reinstatement in their favor.

Dowie's third meeting since his re-  
turn from Mexico for the purpose  
telling his side of the controversy was  
held in the tabernacle Thursday night.  
Fewer than 300 Zionists attended the  
meeting, the remainder of the inhabi-  
tants of the city keeping away from  
the tabernacle in obedience to the  
wishes of Volra.

Dowie's discourse was along the  
same lines as on the two former oc-  
casions. He denied all the charges  
that have been made against him.  
Mrs. Dowie was on the platform with  
him, and also addressed the meeting.  
Dowie's health seems to be improv-  
ing. He walked about the platform  
while addressing the meeting and  
seemed to be steadily gaining strength  
since his return to Zion City.

**Senator Beveridge To Speak in Paris.**  
Washington, May 4.—Senator Ber-  
vridge, Indiana, has accepted the in-  
vitation to speak at the annual banquet  
of the American Council in Paris,  
France, on July 4, next. His subject  
will be "The Present Foreign Policy  
of the United States." Mr. Beveridge  
was invited some time ago to speak at  
the celebration, but he had deferred  
accepting until now because of uncer-  
tainty as to when congress would ad-  
journ.

**Washington Army Bill Passed.**  
Washington, May 4.—The senate  
passed the army appropriation bill,  
carrying an appropriation of about  
\$74,000,000. Aside from a time-killing  
amendment, unimportant, debate  
nothing further of note took place in  
either house or senate.

**BURLEY & HOWELL.**

**To the Burley Tobacco Growers.**

We are now at the beginning of another  
crop. The reports come in from the var-  
ious parts of the district that plant-beds  
are showing up fairly well; farm work is  
progressing, and no serious obstacle is in  
the way of promising good crop of farm  
products.

It seems to be generally accepted that  
the hard work done in the interest of the  
Burley Tobacco Grower in 1904-1905 has  
brought about a gradual change for the  
better, and though the improvement is in  
no way sufficient, yet it indicates what  
organization can accomplish if followed  
up. Every grower who worked for the  
cause in 1904 and subscribed to the or-  
ganization in 1905 and had a crop of to-  
bacco and sold it has received the value  
of his subscription with good interest,  
but in addition to that he still has his  
organization to push the work.

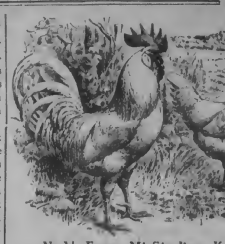

During the winter some inexpensive  
work has been followed up and things  
put in shape, to be ready for business,  
provided the plans can be agreed upon  
and the necessary financial strength made  
permanent and reliable. Investigation  
and a careful study of the past year  
forces the conclusion that the grower  
failed to sign up his tobacco mainly be-  
cause he failed to realize the importance  
of prompt action, and because he expect-  
ed extensions of time, and a desire to see  
his neighbor do it first, while several here  
in mind certain things that occurred the  
year before, while a few availed them-  
selves of the time to sell to the trust at  
bigger prices, which created soreness, and  
this company was determined not to put  
its faithful supporters in such a position  
again.

If the grower had placed absolute con-  
fidence in the published statements of the  
company that the time would not be ex-  
tended and had come up with their Con-  
tract "A", the following lines would not  
have to be written.

All of us who labored to secure the  
financial backing felt perfectly safe in  
representing to the financiers that Con-  
tract "A" would be forthcoming without  
delay, and when it was not, we felt. This  
unfortunate circumstance is now used as  
an argument against us and makes the  
work of securing the necessary financial  
part still harder, as those financiers with  
us in 1905 have lost faith, but as "there  
are others" we still have the faith it can  
be done.

Another obstacle that may confront us  
is the planting of a large crop in 1906.  
This company is receiving reports con-  
stantly, the result of our continuous cor-  
respondence and in nearly all cases com-  
plaints come of sales, prices, and grading,  
but it was either accept what they got or  
nothing, etc., etc., complaints that, while  
the prices were a little better than ex-  
pected, etc., etc., are still in the grip of the  
trust, and we have no permanent, endur-  
ing relief. I get this direct from the  
grower. If true, why is it true? You  
answer: Because they are so big, and so  
strong, and so rich, that we poor growers  
cannot stand against them. Such an an-  
swer is weak—not the whole truth—and  
misleading.

There is a familiar quotation "Truth  
crushed to earth will rise again," and it is  
a fact that the Burley grower, by making  
the above answer, crushes the truth down  
every year, and every year it rises again—  
you say that every year, and while you  
are saying it you are planning to plant all  
the tobacco you can, working to get out a  
big crop, as though it was lying in the  
heap at one per pound—then when you  
get the new crop into the barn you find  
your neighbors have done the same. The  
trust buyers offer you 5, 6, 7 or 8c, pro-  
vided it grades all right—and you say it's  
the one or nothing, then truth rises up and  
confronts you with the actual facts. The

## Liable to Indictment.

The Court of Appeals in the Adams Express case vs. the Commonwealth, from Knox county, holds that the express company is liable to indictment for shipping whisky into local option districts unless it can be proven that the C. O. D. shipment is a genuine Interstate Commerce shipment. In the case on trial the shipments were made from Cincinnati, but the consignee was not named and the consignee not notified by the Express Company that the package was in the Barboursville office. The court says that in such shipment the Express Company is the agent of the unknown shipper and the whole transaction is a fraud to which the company is a party.
